**Re: Bridge to BCG workshop for Advanced Degree Candidates**

To BCG:

I am writing to express my interest in attending Boston Consulting Group's 2012 Bridge to BCG workshop in New York. I am in the MD/PhD program at Mount Sinai School of Medicine in New York City. I will complete my PhD in computational neuroscience in early 2013 and my MD in May 2015. My PhD involves not only biology but also extensive statistical modeling, computer programming, electrical engineering and applied mathematics. In addition to my doctoral work, I am also involved in research projects for the department of Emergency Medicine at the Mount Sinai School of Medicine that involve machine learning (artificial intelligence) and the analysis and visualization of large data sets. I believe that my broad training in medicine, science and applied math will make me a valuable addition to the BCG team. I look forward to the opportunity to learn more about management consulting and to network my, hopefully, future colleagues.

Sincerely,

*M. Chary*
